Attention: George Goforth, Trans. Mgr.

Dear Mr. Goforth:

This letter is in reponse to your letter of August 11, 1983 concerning Illinois EPA manifesting of guillotined shotgun shells.

These shells fall into the category of off-spec. wholesale or retail products and as such are Industrial Process Wastes. All Industrial Process Wastes are Special Wastes which by law must be transported by an Illinois Licensed Special Waste Hauler. Illinois EPA manifests must accompany each load and the facility to accept this waste must possess Illinois EPA permits to handle this waste.

If you have any further questions, don't hesitate to contact this office.

Sincerely,

Terry G. Ayers
